

BOIES AND SILVER ARE IOWA'S CHOICE THE DEMOCRATS ADOPT THEIR PLATFORM.

Friends of the White Metal Have Full Control of the Convention at Dubuque—New Hampshire and South Dakota For Gold—Illinois Conventions.

Dubuque, Iowa, May 21.—The democratic state convention met here Wednesday in the Grand Opera House. The silver men controlled every move and the final result is that, with the exception of the delegates from two districts, the Iowa delegation to Chicago is solid and uncompromisingly for the white metal. Even the districts captured by the gold men are of no benefit to them because of the adoption of an iron-clad unit rule in the instructions.

The convention was called to order at 10:45 o'clock by C. S. Ranck of Iowa City, chairman of the state committee. He introduced the Rev. William D.

HORACE BOIES.

Benton, rector of St. John's Episcopal church, who offered prayer. S. S. Wright of Cedar county, was made temporary chairman. In his speech on taking the chair he objected to the mulet law, characterized it as a legislative monstrosity, scored the republicans for not repealing it and declared that if it was right to manufacture intoxicating liquor in Iowa it was right to sell it there. On the financial question he said:

"That man who advances the argument that the debtor can, after the establishment of a free coinage law at a ratio of 16 to 1, pay his debts at half their face value, may fold to his bosom all the comfort derived by asserting a proposition so glaringly, so palpably at variance with the fundamental principles of a free government, based on true ethics. To make a piece of money out of 51 or 52 cents' worth of silver and say that it shall be received in the payment of all debts at \$1 is but to confiscate one-half of the wealth of every man whose money is loaned; it is to cut in two the little bank deposit of the laborer and to double the price of all things he buys.

"I am unconditionally opposed to our government coining 50 cents into \$1. I am unalterably opposed to the free coinage of silver at the ratio of 16 to 1, or at any other ratio inconsistent with the true, honest intrinsic value of both metals."

The afternoon session was called to order shortly after 2 o'clock by Temporary Chairman Wright. The committee on permanent organization, Judge Hayes, chairman, reported as their choice for permanent chairman Maj. E. M. Carr of Delaware county. They also reported in favor of the unit rule; also in favor of sending all resolutions to the committee on resolutions without debate, and to limiting all speeches to ten minutes. The report was adopted. Mr. Wright then introduced Maj. Carr who delivered a rousing free-silver speech, which was received with tremendous applause.

Pending the report of the committee on resolutions, the election of delegates-at-large was taken up. The following were chosen: Horace Boies, S. B. Evans, Will Wells and S. T. Genung. Just at this time a committee which had been down to see Governor Boies returned, accompanied by him. His presence was greeted with mighty cheers. He looked ill, and he spoke very briefly.

Following is the financial plank adopted:

"We hold to the use of both gold and silver as the standard money of the country, and to the coinage of both gold and silver without discrimination against either metal or charge for mintage. We favor the immediate repeal of all laws by which silver was demonetized and demand its unqualified restoration to the right of free and unlimited coinage in the mints of the United States as money of final redemption at the old ratio of 16 to 1.

"We hereby enter our most earnest protest against all schemes for the retirement of our no-interest-bearing national paper currency, and the substitution therefor of \$500,000,000 of interest-bearing bonds to become an additional burden upon the producing classes, that national banks may be supplied with interest-bearing capital on which to transact their individual business. And we also protest against the further issuance and sale of government bonds to acquire gold with which to redeem the same with the coin of either metal it may possess in strict

accordance with both the spirit and the letter of the law."

The platform also demands the appointment of a cabinet official to be known as secretary of labor, whose duty it shall be, in all cases of tariff-protected industries, to investigate, ascertain and report to congress for what share, if any, of the enhanced price for which protected products are sold in the markets of this country is paid by employers in these industries to their employees, to inquire into the merits of the controversies between employers and employees.

"The delegates-at-large and district appointed by this convention to represent the state in the national democratic convention to be held in Chicago are hereby instructed to vote as a unit as the majority present shall direct on all questions coming before said national convention for settlement by vote of its delegates, and especially upon all questions relating to the adoption of a platform for the party and the nomination of candidates for president and vice-president; and the delegates present in said convention, if less than the whole number be present, and to which the state is entitled, are hereby authorized to cast the full vote of the state in accord with these instructions.

"Reposing full faith and confidence in the democracy, patriotism and ability of Horace Boies, formerly governor of the state of Iowa, we hereby declare it to be the bounden duty of every patriot in Iowa, without regard to former party affiliations, to use all honorable means to secure his nomination at the democratic national convention to be held at Chicago, July 7, 1896, for the high and responsible office of president of these United States."

The minority report on resolutions was as follows:

"Sound money is necessary to the prosperity of the people; we, therefore, oppose all devices for debasing the currency whether by further issue of government paper or the free coinage of silver at 16 to 1. Consistent with these principles we favor the largest and most liberal use of silver possible, and the strict maintenance at par with gold of all outstanding currency of the government.

"We heartily indorse the administration of President Cleveland for wisdom, courage and fidelity to the public interests."

The majority report was adopted, also the selection of district delegates. The state central committee stands five for gold, six for silver, and favors the selection of C. H. Walsh over J. J. Richardson as national committeeman.

ILLINOIS CONVENTIONS.

McHenry County Democrats Instruct for Altgeld.

Woodstock, Ill., May 21.—At the McHenry county democratic convention Wednesday the administration of Governor Altgeld was indorsed and the delegates were instructed for his re-nomination. No reference was made to the tariff or money questions.

Yorkville, Ill., May 21.—The Kendall county democratic convention instructed its delegates to the state convention to vote for the renomination of Governor Altgeld and the remonetization of silver.

Cambridge, Ill., May 21.—At the Henry county democratic convention resolutions were passed in favor of free silver at a ratio of 16 to 1 and indorsing Governor Altgeld.

Declare for "Sound Money."

Concord, N. H., May 20.—The New Hampshire democratic state convention met Wednesday. Harry Bingham presided. The financial plank of the platform adopted is as follows: "Under present conditions there can be but one standard of value, and every kind of currency should rest upon a gold basis so long as gold is the standard recognized by the great commercial nations of the world and we heartily commend the action of President Cleveland in so firmly maintaining our public credit and faith in the face of formidable opposition." In other planks the platform declares for a tariff for revenue only, in favor of vigorous maintenance of the Monroe doctrine and against proscription on account of religious opinions.

Senator Tillman at the Head.

Columbia, S. C., May 21.—South Carolina democrats stand by Senator Tillman, who was on Wednesday selected in state convention to head a solid 16 to 1 delegation to Chicago. The platform denounces the administration of President Cleveland as undemocratic and tyrannical; denounces its attitude on finance and the issue of bonds; expresses belief that the "power and usurpations of the federal courts, as now organized," are dangerous to the republic; demands a more economical administration of national affairs; demands the free and unlimited coinage of silver at a ratio of 16 to 1, regardless of the action of any other nation, and the enlargement of the powers of the inter-state commerce commission.

Defeat Gorman's Plan.

Washington, May 21.—The senate Wednesday defeated—42 to 9—a proposition by Mr. Gorman for the issue of \$100,000,000 of 3 per cent treasury certificates to meet prospective deficiencies. This was followed by the defeat—43 to 12—of another proposition by Mr. Peffer, of Kansas, for the issue of greenbacks to meet the appropriations made by the fortifications bill.

BARS ILLITERATES FROM THE COUNTRY

IMMIGRATION BILL PASSED BY THE HOUSE.

Bartholdt and McCall Measures Selected as Embodying the Views of Congress—Senate Passes Bill Providing for Fortifications—Session Is Near the End—Capital News.

Washington, May 21.—After two days' debate the house Wednesday, by the overwhelming vote of 195 to 26, passed the Bartholdt-McCall immigration bill, as modified by the Corliss amendment. The Stone consular inspection bill, offered as a substitute, was defeated—75 to 131. The bill, as passed, adds to the classes of aliens excluded from admission to the United States all male persons between the ages of 16 and 60 years (except parents of persons living in this country), who cannot both read and write English or some other language.

The Corliss amendment excludes aliens who come across the borders year after year to perform labor in the United States with no intention of settling therein. It declares all labor contracts with aliens void, and makes parties thereto within the jurisdiction of the United States punishable by a fine of \$1,000 or imprisonment, not exceeding one year; makes it a misdemeanor for naturalized citizens, who have returned to a foreign country to make the same his home, to again perform labor in the United States; makes it a misdemeanor for any alien to cross the border for labor in the United States, except at a port of entry, and imposed a head tax of 50 cents on each immigrant.

Before the debate began a special order was adopted setting aside Thursday for the consideration of the Phillips commission bill, and Friday for the Erdman arbitration bill.

The order provoked the vehement protests of the friends of war claims, who charged the leaders of the house with treating them unfairly. Both Mr. Mahon (rep., Pa.) chairman of the war claims committee, and Mr. Walker (rep., Mass.) served notice that at the next session, beginning in December, no bills would be allowed to pass by unanimous consent. Their threat is for the purpose of forcing the consideration of bills on the calendar. Mr. Walker ridiculed the precipitancy with which the house rushed to the support of Venezuela and Cuba, while it turned its back coldly on the poor creditors of the government, who were unfortunate enough to be its own citizens.

The order was adopted, and the debate on the immigration bills was renewed. Mr. Wilson (dem., S. C.) favored a radical restrictive measure.

During the debate the preliminary conference report on the Indian bill was adopted, and the bill sent to further conference.

Mr. Hendrick (rep., Ky.) opposed an extension of the laws designed to restrict immigration.

Mr. Danford (rep., Ohio) supported the Stone bill for consular inspection. Thousands of petitions, from all parts of the country had come in favor of this bill. The main opposition came from the steamship companies.

Mr. Bartholdt (rep., Mo.) protested against the statement that 50 per cent of the inmates of the penitentiaries and almshouses were foreign born. He produced census statistics to prove that 27 per cent of the inmates of the penitentiaries and 13 per cent of the inmates of the almshouses were foreign born. He asserted that the German-American press of the country was a unit against the Stone bill.

At 4 o'clock, under the special order, the voting began. The first vote was taken on the Corliss amendment to the McCall educational test bill. It was agreed to—121 to 45.

The Stone consular-inspection substitute was lost—75 to 131. The bill as amended was then passed. Mr. Fitzgerald, of Massachusetts, demanded the yeas and nays, but his demand was not supported by a sufficient number of members. The house then adjourned.

SENATE NEARS THE END.

Only General Deficiency Bill and Conference Reports Remain.

Washington, May 21.—The senate took another long step toward adjournment Wednesday by disposing of the fortifications appropriation bill at a single sitting. Nothing now remains but the conference reports on the naval, river and harbor, District of Columbia, Indian and fortifications bills. The river and harbor and naval bills are still the most difficult ones.

The naval bill conferees are still in a tangle over the senate amendments. The house provided for four battleships and fifteen torpedo boats, while the senate cut the number down to two battleships and thirteen torpedo boats. All the members of the house committee insist on the four battleships. The house committee cannot recede, because the committee has been instructed to insist on the provision. There have been no such instructions on the part of the senate.

Great Event Today at Moscow.

St. Petersburg, May 21.—Today is the great day of the solemn entry of the czar and czarina into Moscow. So far their imperial majesties have been outside of the city, at the Petrofsky palace. They have as yet received no welcome from the city of Moscow itself.

CHURCHMEN GATHER AT MANY CITIES

MEN OF DIFFERENT RELIGIONS IN SESSIONS.

Methodist Conference Proceeds With Its Work at Cleveland, Ohio—Presbyterians at Saratoga Commence Work Today—Hard to Adjust Differences—Other Denominations.

Cleveland, O., May 20.—Bishop Foster presided Wednesday at the Methodist Episcopal general conference. It was decided to permit but one nomination and one second to be made.

The first ballot for book agent in the Western Book Concern at Cincinnati was announced. The whole number of votes cast was 496. Of these Lewis Curtis received 301, thus re-electing him. The second ballot for junior agent at New York was announced as follows: Whole number of votes cast, 480, making 241 necessary to a choice. The result was: Magee, 186; Mains, 132; Dougherty, 59; Swindells, 45; Evans, 27; King, 24; scattering, 7. A third ballot was ordered.

Resolutions denouncing as disgraceful the sale of intoxicating liquor in the capital at Washington, and commending the bill reported by the house committee prohibiting it, were adopted.

The committee on state of the church reported in favor of no change in the rule prohibiting the use or encouragement of liquor, dancing, games of chance, theater going, circuses and horse races. The report was adopted. Only about 40 voted in favor of striking out the restrictions.

On the fourth ballot for agent for New York Dr. Manis was elected, receiving 339 of the 509 votes, making the New York agents Dr. Eaton and Dr. Manis. The third ballot for second agent at the Western Concern in Cincinnati was then announced. The whole number of votes cast was 508, making 255 necessary. Of these Jennings received 253, Johnson 177, and other scattering. A fourth ballot was ordered and Dr. Jennings was elected.

Nominations for secretary of the missionary society were then taken. In all 512 votes were cast, making 257 necessary to elect. On the first ballot, Dr. A. B. Leonard, of Cincinnati, received 388 and Dr. A. J. Palmer, of New York, received 300, thus electing them both.

A second ballot was taken for the third secretary, which showed 495 votes cast, making 248 necessary to elect. The leaders were: Hamilton, 178; Broadbeck, 102; Smith, 101; Baldwin, 57. Adjournment was then taken without further balloting.

The committee on state of the church decided to take up a proposition to form a kind of supreme court, will have final authority in all cases of the dismissal of laymen. This committee will also ask the conference to request Bolivia, Peru, Chili and Ecuador to remove constitutional discrimination against missionaries. In these countries marriage by Protestant ministers is not recognized as legal.

The committee again took up the resolution asking for the insertion of the name of the deity in the United States constitution, and voted it down.

The committee on temperance decided to present to the conference a strong resolution against the use of tobacco.

The committee on episcopacy decided on its report on episcopal residences. The places remain unchanged with two exceptions. The bishop, who has heretofore gone to New Orleans, may go to Fort Worth, Tex., if he sees fit. An episcopal residence was taken from Omaha and given to Portland, Ore., because there is a bishop at Topeka, Kan.

An attempt was made to have the committee on itinerancy recommend that a bishop must take any appointment asked for by three-fourths of the presiding elders. It was accepted with the modification of recommending the bishops to grant such requests. The committee discussed the proposition to allow trial preachers to perform the marriage ceremony, and will probably report favorably upon it.

PRESBYTERIANS MEET.

Dr. Withrow of Chicago a Probable Candidate for Moderator.

Saratoga, N. Y., May 21.—Commissioners to the Presbyterian general assembly came in in great numbers all day yesterday. During the day and evening conferences of the Presbyterian and synodical chairmen of foreign missionary committees were held, the evening meeting being large and enthusiastic.

There are said to be five candidates in the field for the office of moderator. But the refusal of Dr. Benjamin L. Agnew of Philadelphia to run, and the probable withdrawal of Dr. Thomas L. Saxton of Nebraska from the race, will leave the contest between Dr. John L. Withrow of Chicago, who is named as a liberal candidate; Dr. David R. Breed of Pittsburgh, who is classed as a conservative, and Dr. Frank C. Monford of Cincinnati, who is understood to represent the ultra-conservative branch of the church.

The theological seminary committee has had several sessions. It is said they are having great difficulty in adjusting differences, and that the prospect of a conclusion satisfactory to the ultra wing of the assembly is small.

Modern Revival Methods Criticized. Aurora, Ill., May 21.—The Rev. J. B. Silcox of Chicago stirred up a fight in

un-Christian and different from the teachings of Christ, as brass is different from gold. The address was frequently applauded. The methods of revivals the fifty-third annual meeting of the General Congregational association of Illinois, when he threw down the gauntlet, declaring war on modern revival methods. He ridiculed the methods of the average evangelist as wholly were defended by other divines. At the morning's session of the conference the first business considered was the election of corporate members of the Illinois Home Missionary society. The retiring members were returned, and the board, in executive session, afterward elected the following directors: Messrs. Lovejoy, Johnson, J. M. Sturtevant, D. D., the Rev. David Beaton, Albert W. Boyden, Thomas C. Mac Millan, the Rev. George H. Wilson, Henry A. Bushnell, D.D., and the Rev. Dr. Sime of Sycamore.

Southern Presbyterians Gather.

Memphis, Tenn., May 21.—The opening exercise of the general assembly of the Southern Presbyterian church began today. The First Presbyterian church has been chosen as the meeting-place of the assembly. The last time the general assembly met in this city, thirty years ago, its deliberations were held in the First Presbyterian church, which stood upon the same lot. The old church was subsequently burned. Many leading divines are in attendance. The business sessions will be held daily, one during the morning and the other in the afternoon. In addition to these business sessions, there will be a session every evening, which will be made particularly interesting to the public.

Baptist Publication Society.

Asbury Park, N. J., May 21.—The seventy-second anniversary of the American Baptist Publication society began Wednesday in the Auditorium. Receipts from all sources were \$558,590, against \$532,763 the previous year. James A. Bradley, founder of Asbury Park, delivered an address of welcome. He was followed by the Rev. Dr. W. M. Lawrence of Chicago, with an address on "Denominational Literature and its Distribution." This ended the morning session. In the afternoon there was a young people's hour in charge of the Baptist Young People's Union of America.

Work for Foreign Missions.

Lincoln, Ill., May 21.—A two days' session of the Woman's Foreign Missionary society of the Bloomington district of the Methodist Episcopal church closed here Wednesday. The attendance was good, and the program very entertaining. Mrs. R. M. Wilson, Lincoln, was elected president.

Silver in the Saddle in Kansas.

Topeka, Kan., May 21.—Democratic conventions have been held in fifty of the 105 counties in Kansas and delegates chosen to the state convention to be held at Topeka June 5 to elect delegates to Chicago. The advocates of the free coinage of silver at 16 to 1 have had things their own way and have defeated the friends of the single standard wherever a contest was made. The results so far indicate a solid free silver delegation to Chicago, although the friends of the national administration are working hard for representation in the delegation.

Wyoming Democrats Today.

Cheyenne, Wyo., May 21.—A free silver delegation to Chicago will be elected by the Wyoming democratic convention today, all the counties having sent delegations instructed for silver. There will be a fight by conservatives to prevent the adoption of resolutions condemning President Cleveland and to defeat proposed instructions to the national delegation to bolt if the silver doctrine is defeated at Chicago.

Hastings Not a Candidate.

Harrisburg, Pa., May 21.—Governor Hastings denies the story that he had consented to become a candidate for vice-president before the St. Louis convention, at a recent conference at Washington with Senator Quay. To use the governor's own words "there is nothing in it." He says he is not a candidate for anything and that he is so well pleased with the office he now fills that he does not care to change.

Shively Room Started.

South Bend, Ind., May 21.—A meeting of democrats was held here Wednesday at which it was decided to urge B. F. Shively as a candidate for governor. A committee of seven was appointed to look after his interests. Mr. Shively said that, although not a candidate, he would accept the nomination. Mr. Shively favors the restoration of silver to its former position, and will, if nominated, make the race on that platform.

Banks Protest Against Silver.

New York, May 21.—Resolutions protesting against any departure from the existing monetary standard of this nation were adopted at the annual meeting in this city of the Savings Banks' Association of the State of New York. The association claims to represent 1,700,000 depositors, with deposits amounting to \$700,000,000.

Physico-Medical Physicians Meet.

Indianapolis, Ind., May 21.—The National Association of Physico-Medical Physicians has been in session here for two days. Wednesday J. M. Stephenson, Chillicothe, Ohio, was elected president. The association will meet at Columbus, Ohio, May 1, 1897.

THE G. A. R. HONOR D. LLOYD JONES

HE SUCCEEDS W. D. HOARD AS COMMANDER.

The Choice Was Made This Morning—The Other Officers Elected At the Racine Encampment—President Elliot Denounced By Resolution For His Statements.

Racine, Wis., May 21.—[Special]—At the morning session of the G. A. R. the following officers were elected: Department Commander—D. Lloyd Jones, Stevens Point. Senior Vice Commander—H. J. Smith, Racine. Junior Vice Commander—T. M. Mason, Rhinelander. Medical Director—J. T. Reeves, Appleton. Chaplain—M. B. Balch, Mauston. Trustees of Waupaca Home—R. M. Roberts of Waupaca, and C. L. Chase of Oshkosh. Resolutions were passed condemning the statements made by President Elliot of Harvard, concerning the G. A. R.

Burglars Burn a Block.

Florence, Wis., May 21.—[Special]—The general store and postoffice building owned by Henry Hollins, in Commonwealth, was burned to the ground last night, the entire contents valued at \$5,000 being destroyed. It is supposed to have been the work of burglars, as the fire was preceded by violent explosion and before the building could be entered it was a mass of flames. The safe door was blown thirty feet, and through side of the building, while the contents of the safe—\$700 in currency besides valuable papers—was either destroyed by the fire or taken by the parties who did the job.

Boy Shot His Brother.

Pond du Lac, Wis., May 21.—[Special]—Robert Mead, aged eighteen had a quarrel with his brother Frank, aged fourteen today and picking up a rifle shot Frank through the knee. Frank will be crippled for life. Robert made his escape and has not been found.

Killed in a Mill.

Oshkosh, Wis., May 21.—[Special]—John Bower, a workman in Paines' lumber factory was caught in a revolving shaft and whirled around at a terrific rate of speed. All the clothes he wore were torn off and he was fatally hurt.

Banker Trumpf Returns.

Milwaukee, Wis., May 21.—Gustave C. Trumpf, ex-president of the South Side Savings Bank, who disappeared when the bank collapsed in July, 1893, returned to the city unexpectedly Wednesday night and will give himself up to the authorities. There are three indictments against him, one for receiving deposits after he knew the bank was insolvent, one for making false returns to the secretary of state, and one for embezzlement. He has been in Germany for nearly three years.

Call for Wisconsin Democrats.

Milwaukee, Wis., May 21.—Ex-Gov. George W. Peck, chairman of the democratic state central committee has issued the call for the state convention to elect delegates to the Chicago convention. It will meet in this city June 23.—The delegates will number about 360. The representation is based on the vote cast for president in 1892, each 500 votes or major fraction thereof being entitled to one delegate.

South Dakota Against Silver.

Aberdeen, S. D., May 21.—By a vote of 240 to 152 the "sound money" men Wednesday obtained control in the democratic state convention. The financial plank is as follows: "The democratic party of South Dakota is in favor of the present standard of value in our monetary system and the use of full legal tender silver coins and paper convertible into coin on demand in such quantities as can be maintained without impairing or endangering the credit of the government or diminishing the purchasing or debt-paying power of the money in the hands of the people." Other resolutions oppose any effort to materially alter the "present just and conservative tariff," and pronounce against secret political organizations.

American Mission Wrecked.

Shanghai, May 21.—The mission recently wrecked at Kiang-yin was American property, and not British, as first reported. The admission of a native child to the hospital caused the assembling of a mob, which demanded the child, and upon the refusal of the missionaries to give it up the infuriated crowd wrecked the buildings. The missionaries, however, escaped.

Strikers Lift the Boycott.

Kansas City, Mo., May 21.—The striking firemen of the Armour packing plant, who went out May 6 for increased wages and fewer hours, have compromised their differences, lifted the boycott against the company's meat, and returned to work.

Capt. George E. Lemon Dying.

Washington, May 21.—Capt. George E. Lemon, the millionaire pension agent, patent attorney and proprietor of the National Tribune, is at the point of death. He has been ill for a long time.

## THE LINE CITY BOYS BEATEN

Beloit's Change of Players Gave Grinnells the Game

The Beloit base ball team met its first defeat of the year yesterday, giving Grinnells college the game because of wretched playing in the third inning, in which the visitors secured ten runs. The management saw fit to play the men in new positions and the experiment cost Beloit the game. Meyer, a superb fielder, went in as shortstop and put up four rank errors in that inning, and other players performed the same sort of antics. When things were righted the Belois played their usual strong game. The Grinnells batted well, but were weak in team work. Umpire Stocking's decisions on balls were unsatisfactory to the visitors. The score:

Grinnells	0	0	10	0	1	0	0	3	14
Belois	2	1	1	2	4	0	2	1	13

Eczema is a frightful affliction, but like all other skin diseases it can be permanently cured by applications of De Witt's Witch Hazel Salve. It never fails to cure piles. C. D. Stevens.

## "AIR BRAKE CAR" WAS HERE TODAY

A. C. & N. W. EXPERT GAVE LOCAL MEN LESSONS.

Rules Are Being More Rigidly Enforced and All Employees in the Freight or Passenger Train Service Must Thoroughly Understand the System Used.

Instructions in the working of the air brake system, were being given to all the local employees of the Northwestern company today. A thorough course in the use of the brakes is now required by the company, and all its employees in the train service are required to know about the working of the apparatus. The finest equipped "air brake car" in the service of the company was here today in charge of an expert. The car itself is a "traveling school," and George Pratt, who is chief air brake inspector for the company, is the "teacher."

A local official says that the orders are strict in reference to a knowledge of the workings of the brake of a train, and that every man, whether on a freight or a passenger train including the engineer, fireman, brakemen and conductor, must keep posted or stand in danger of "losing his job."

The car is equipped like a regular train, and a boiler and air pump are carried to work the brake. The local men who were examined today, all seemed to be well posted, and it was plainly demonstrated to Inspector Pratt that the local employees were all keeping up to the requirements.

**W. H. GATES FOUND NOT GUILTY**

Milton Junction Banker-Druggist Did Not Sell Liquor.

W. H. Gates, the proprietor of a bank and drug store at Milton Junction, was tried on the charge of selling liquor without a license, and found not guilty by a jury in Justice West's court. The state's evidence was furnished by an amateur detective, who was to get \$25 for each conviction he secured—a proceeding that public sentiment didn't seem to favor. The case has been in court eight times, District Attorney Jackson prosecuting, and F. O. Burpee defending.

## THE NEWS OF ROCK COUNTY.

**South Clinton News.**  
South Clinton, May 31.—Miss Nellie Merkle has charge of the school in the Northrup district. Look out for the May baskets these nights. Marion Dresser has been out of school a week with chicken pox. The neighborhood prayer meeting was held at Mr. Jack's last week. If you want to see C. J. Dresser laugh just ask him about the new wind mill. Mrs. Patch is home for a few days. Mr. Nelson, the assessor, is at work in the town. The district convention at Clinton has called some of our people Clintonward of late. A birthday, a new watch and George Dresser seem to agree finely. Charles Bellinger and sister drift this way for the day now and then. George Dresser was out of school for nearly a week in consequence of a blood suckers bite. Mrs. Clark, of Shopie, and Mrs. Curtiss, of Clinton, were callers here not long ago. Edwin Dresser took in Carver's Rocks and spent a few hours with his parents on his return to Beloit. Mrs. E. S. Westby has been quite poorly for some time. Darius Winkley, wife and wife's sister called on friends here. Several of our people took in both the Sunday School convention and also the Beloit district convention, both of which were held in Clinton. Mr. Jacket and family visited in Beloit. Edward Patch and Marion Dresser visited his mother, at Beloit, one day last week.

**Gossip of Rock River.**  
Rock River, May 21.—There will be an ice cream social at Mr. and Mrs. Joseph Vincent's, next Saturday night, May 23. All invited. Kittie and Jennie Rose spent Saturday and Sunday at home. The C. E. program, which was to be held Sabbath night, has been postponed until some other time in the near future. Mrs. M. W. Rose and son Marion, visited relatives at Whitewater, one day last week. Mrs. Stearns and Mrs. Ed Butler of Whitewater visited Mrs. Joseph Vincent one day last week. Mr. and Mrs. Will McCarthy of Albion visited Mr. and Mrs. Harry Green one day last week. Messrs. Eli Loofboro and Fred Whitford of Milton will conduct the service here next Sabbath. Mrs. George Bassett of Williams Bay visited relatives a part of this week. Maud Rose and Minnie Crandall visited friends at Edgerton this week.

**South Turtle Gossip.**

South Turtle, May 21.—Dexter Northrup has been visiting here. Mrs. D. G. Smith has been making her many friends smile with her lovely flowers. Rev. Cyrus Osborn spoke at the district convention at Clinton Tuesday afternoon. Mrs. Nellie Crockett Osborn has been suffering with quinsy. Miss Murray closed her school in the Murray district on Monday afternoon of last week to attend the funeral of her classmate, Oscar Rustad. If you want to see the champion runaway team call on Mr. Martin. Neighborhood prayer meeting at J. A. Crockett's Thursday evening of next week, May 28.

**Indian Ford News.**

Indian Ford, May 21.—Mr. and Mrs. William Farley, who live two miles west of Edgerton, spent Sunday in Edgerton. Miss Myrtle and Miss Mildred Proctor, Miss Aikin and Miss Josie Schofield, all of Janesville, visited at J. C. Hurd's, on Sunday. Miss May Call called on some of her many Ford friends last week. C. Hallett and wife called on Belvidere people Sunday. Mrs. C. Gary and son Elmer visited her sister, Mrs. James McCan, a couple of days last week. D. W. Walrath of Southeast Fulton, is nursing a lame knee. Mrs. Nellie Terry of Janesville, has been staying with her father, R. V. Johnson, for a few days.

**Attention, R. N. A.**

# THE OVERFLOW OF LOCAL NEWS.

## MISLEADING LINES ON ADS.

Cuts and Headings That Do Not Bring Business to the Store

I have before me a page ad. from a weekly periodical; the cut occupies one-third of the space. It represents two young ladies on bicycles, and around it are the words in twenty-four point gothic, "there's nothing in it; they look pretty but they're not happy." I supposed it was a bicycle ad. I was hunting for illustrated ads. that would demonstrate the theory that a cut that has no bearing upon the article advertised is valueless, probably worse than that, and has no business-bringing qualities whatever. One studies the cut at the expense of the reading matter. The impression left upon my mind after reading the ad. in point was not that "Meyer's overcoats are carefully put together; linings and things you can't see are the best right straight through," but that there was a mixture of strange, weird ideas, no one of which created much effect, if any at all.

The purpose of the writer was to catch the readers eye simply, and in that he was successful, because few cuts, however bad, will fail to do that. Having gone so far, though, he stops suddenly, mixes up bicycles, girls and Meyer's overcoats, and asks the reader to digest the unsavory mess at the risk of nervous dyspepsia. Not a single strong point is brought out about Meyer's overcoats; a patent medicine man might introduce the spirit-of-health theory from using Jones' pills, but that would hardly be a connecting link, even in a pill advertisement.

Supposing now, we make a cut of a nice young man (not an automaton), overcoat unbuttoned, resting both hands upon hips, coat lapels rolled back, and in jacket into the space below: "Throw back the lapels if you want to," (for headlines) "there's nothing to hide in this overcoat but the price; and that's so small it's lost meaning." The eye, attracted by the cut, follows naturally into the headlines, thence on to the reading matter, while the impression is quickly formed, and rightly, that Meyer's overcoats are pretty good things to own. There is a natural collection in every little detail that forces "overcoats" out above everything else.

## BEDRIDDEN.

FIFTEEN YEARS OF SUFFERING.

The Doctors Wanted Seven Hundred Dollars to Attempt the Case.

The following is a letter we received a short time ago from Mrs. M. C. Hinkley, 602 North Mississippi St., Indianapolis, Ind.: "Gentlemen:—While suffering intensely from piles, I became interested in your advertisement in one of our daily papers and procured a package of your Pyramid Pile Cure from our druggist. Contrary to my expectations, the relief was instantaneous. I used two boxes of the Pile Cure and one of the Pills and am convinced that they are the only sure cure for piles on the market. I have been a sufferer from piles for fifteen years and have been confined to my bed about one-half of the time, expecting and wishing for death for the pain was so great. I went to the college here and the doctors said my case was a new one to them, the great pain having brought on a large rupture, which they wanted seven hundred dollars to cut out. I was very much afraid that death would result from the blood-poisoning which they said would result from the operation. I feel as though I can't praise the Pyramid Pile Cure and the Pyramid Pills too highly, as I am convinced that they saved my life. Before using your cure I weighed only ninety pounds and now I weigh one hundred and fifty and feel as well as I ever did in my life. You are at liberty to use this testimonial in any manner you may see fit, as I want all sufferers from this terrible disease to know that there has at last been compounded a remedy that will cure piles."

Mrs. M. C. HINKLEY. There is no need of the danger, pain and expense of a surgical operation for any form of piles. The Pyramid Pile Cure does the work without pain and is the safest and best. Remember also that the Pyramid Pills are a certain cure for constipation, acting without griping and restoring natural action of the bowels.

The Pyramid Pile Cure is sold by druggists at 50 cents and the Pyramid Pills at 25 cents, or by mail from Pyramid Co., Albion, Mich.

THIS DAY IN HISTORY.

1601—Cornelius van Tromp, famous Dutch admiral, died.  
1729—John Law, famous financier, died in Venice; born 1671. Law was a Scotchman by birth. He lived a gay life in London until he killed his man in a duel, then fled to the continent. About 1715 he interested the Duke of Orleans, regent of France, in financial schemes to enrich the kingdom. A bank of issue and discount was established and a Mississippi company formed to control the trade between the vast French colony of Louisiana and certain countries, including China. Shares in the bank and the company rose to 20 times the original value. In 1729 the bubble collapsed. Law was driven from France and died in poverty in Venice.  
1870—Famous naval engagement off Iquique, Chile; the Peruvian monitor Huascar sunk the Chilean ironclad Esmeralda.  
1894—General Phil. Cooke, a distinguished Confederate veteran, died in Atlanta; born 1817.  
1896—Franz von Suppe, the "Austrian Offenbach," composer of "Bohemia," etc., died in Vienna; born 1820. Dr. Mary Harris Thompson, founder and head surgeon of the Chicago Hospital For Women and Children, died; born 1829.

JOHN LAW.

THE RETICENCE OF SELF-RESPECT.

New York Tribune:—So far as the leading candidates for the republican nomination for president are concerned, The Tribune, as it has already said and repeated many times, could support any one of them with cordiality and enthusiasm. During the preliminary canvass, now almost ended, it has contented itself with chronicling the news and observing benevolent neutrality, having no preference that it could not yield with perfect good nature to the will of the majority, and certainly no ground whatever for hostility to any individual candidate. We are, of course, not unaware, that in the progress of the canvass, the steadily growing strength of the McKinley candidacy, which could not be concealed or ignored without dishonest garbling of well attested facts, has been a constantly increasing source of annoyance to the earnest and sincere, though sometimes oversensitive, friends of other candidates. Naturally enough, the impression, which has naturally grown into a conviction, that McKinley would be the republican candidate has drawn upon him the combined opposition and concentrated fire of the democratic and mugwump press. In this state of affairs the Tribune's comments upon current political events have doubtless had to some of its readers the appearance of partisanship for McKinley, notwithstanding its repeated disclaimers. But we are confident that such critics, if any there be, upon reflecting that the Tribune has never uttered a word of disparagement of the recognized leading candidates—Reed, Allison or Harrison—and that its apparent championship of McKinley was solely due to the fact that as the popular candidate he was the only one under fire from the opposition, will approve its course and justify its action.

The preliminary canvass appears to be practically over. Simply as an honest chronicler of, and commentator upon, current political events The Tribune cannot do otherwise than declare that in its belief, as manifestly in the belief of an overwhelming majority of the American people of all parties, Mr. McKinley will be the next republican candidate for president of the United States. And however republicans may differ as to his relative merits and qualifications, as compared with other distinguished statesmen, who have been most prominently named, it is a source of gratification to all who have an intelligent comprehension of the functions and scope of popular institutions, as of the dangers that beset them that in his selection as the candidate no one man or one set of men has been potential, but the great body of voters, free and untrammelled, have said their say, had their way and made their choice. Nor have they done it blindly and unthinkingly in unreasoning worship of a personal idol, or of a man who has charmed them by his magnetism or won them by the fascinations of eloquence or the gifts of oratory. He is to them an ideal candidate because he represents to them in its most concrete form and expression a political idea in which they thoroughly and profoundly believe. They want to say by his nomination and election that a great mistake was made in 1892, when the policy of protection to American industry was reversed and the tariff with which his name is inseparably connected was repealed. That is the meaning of the

overwhelming tide of republican sentiment which has been setting so surely in the direction of his nomination for many months, and has now apparently made it inevitable.

Nor will the great body of voters who have so unmistakably made their preference known be diverted from their purpose or disturbed in their conviction of duty to themselves and the country by any hullabaloo of democratic and mugwump newspapers attacking him with insinuations—and insinuations only—as to his position upon the currency question. Distortions of his public utterances, parading of half sentences and suppressions of the remainder, garbling of speeches, and a grand, all around dervish dance over his self-poised reticence under the concentrated bombardment of a mischief making, scandal mongering and indecent press, will not move them. They know that they can trust the republican party on the money question above all others, by reason of its record; that they can trust its candidate as well, and that, without any doubt or distrust, they can wait for the national convention to adopt an outspoken gold standard candidate upon it. They will stand by their candidate because they believe in his absolute soundness on both the tariff and finance. And they will not be disturbed at his refusal to be catechised by his opponents on either of them, or on schedules or details, or on the A. P. A., or on woman suffrage, or on Venezuela, Hawaii or Cuba. Meanwhile let all republicans derive innocent amusement from the antics of the democrats and mugwumps, who are dancing around McKinley and bombarding all his friends with ridiculous conundrums. They are only amusing and utterly harmless. Mr. McKinley is entitled to the rights of a private citizen. And he is not in contempt of the American people if he respectfully declines to be catechised and cross examined by the paltry pettifoggers who represent metropolitan newspapers pretending to enormous circulation.

Mrs. H. A. Tenney and Son Have Both Fully Recovered.

The diphtheria quarantine at the Washington street residence of Mr. and Mrs. H. A. Tenney was raised today. During the past two weeks Mrs. Tenney and her son have been ill with the dread disease. This is the only case of diphtheria reported in many weeks.

SENTENCES ARE SEVERE.

Transvaal Reformers Find Much Sympathy in Great Britain.

Pretoria, May 21.—The sentences of the leaders of the Johannesburg reformers will stand over until next week, and in the meanwhile sentences of fifteen years' imprisonment have been substituted for the sentences of death imposed on Col. Rhodes, John Hays Hammond, Lionel Phillips and George Farrar. Nine others of the prisoners are discharged. Eighteen are sentenced to five months' imprisonment and twenty-two are sentenced to three months' imprisonment.

London, May 21.—The shock caused by the confirmation of the rumor of the severe sentence passed upon the reform leaders at Johannesburg is not appreciably lessened by the tidings of the comparative mildness of the punishment meted out to the rank and file of the movement against the Transvaal government. Fifteen years in a Boer prison is simply "death," spelt in a longer form.

A Test of Personal Identity.

The accuracy of "finger prints" as a test of personal identity is well shown by some recent photographs of Francis Galton. In a case of twins, their photographs and measurements were closely alike, but the minutiae of their finger prints were quite different. An enlarged photograph of the print of the hand of a child eighty-six days old shows the development of the distinctive little ridges of the skin even at that early age.

SEASONABLE SUGGESTIONS.

Warm weather brings forcibly to mind the question of cool footwear. As a matter of fact women wear more comfortable shoes in the heated months than men. The reason probably is because Oxfords are so pretty and so stylish and can be procured at so small a cost. With almost a bewildering assortment of Oxfords it's not to be wondered that we have a large trade on these cool shoes

**\$1.00** buys an elegant black or tan Oxford, point toe.

**\$1.25** buys one a little finer and good enough for anyone.

**\$1.50** This is where we are particularly strong. We show about a dozen different styles in tan and black at this price. All the newest styles in Turns and McKays sewed.

**\$2.00** If you are looking for a good investment in shoe leather, and \$2.00 is the amount you wish to invest, just take a look at our \$2.00 Oxfords; all the new shades of tans and the nobbiest of blacks. We take no back seat when it comes to \$2.00 oxfords.

**\$2.50 and \$3.00** Some think that a large price to pay for an Oxford but it buys just as fine an Oxford as can be made by the best shoemaker in the land.

We are showing one Oxford particularly in a dark tan made on the extreme needle toe with a silk top which is the handsomest shoe we have ever shown. It is made from a new pattern, the cloth being one piece. No seam in front, which makes a very nobby effect on the foot. Come in and see it. If you are looking for new and stylish Oxfords we have them. We want your trade on these goods. All we ask of you is to inspect our stock.

IF IT IS NEW WE ARE SURE TO HAVE IT.

## COMPANIES AGREE TO REMOVE POLES

### CHIEF SPENCER'S PLAN WILL GO THROUGH.

All the Street Car Company "Sticks" and Many Others On Milwaukee Street to Be Done Away With—Street Car Company "Bonding" the Rails.

Unless a complication arises in the final assignment, Chief Spencer's plan to do away with one-half of the poles on Milwaukee street will go through.

The plan is entered into by Captain Pliny Norcross, owner of the arc plant, the Bower City Light and Power company, of the incandescent plant, the Wisconsin Telephone company, and the Janesville Street Railway company. The interested parties surveyed the lines yesterday afternoon and came to a verbal agreement. The understanding has not yet been reduced to writing, but it is understood that it will be a "go."

Under the plan all the street car poles on Milwaukee street from Academy to Wisconsin will be removed, and many of the others as well. Two out of three will be taken from the south side of the street. The two lighting companies will use the poles on one side of the street while the telephone and city wires will go on the other side. The span wires of the Street Railway Company will be strung between them.

#### People Much Pleased.

Firms located on the street, as well as people in general, are much pleased with the idea of doing away with so many of the unsightly poles and it will improve things greatly.

"The scheme is a go," said Capt. Norcross to a Gazette man. "We have all practically agreed to it."

The next move will be the assigning of the poles, and the removal of those not to be used, the work to be done under the city ordinance.

All the parties interested are conceding a good deal, as all have franchises entitling them to maintain individual lines on the street. The street railway company agrees to insulate its span wires to the satisfaction of the other companies interested. The incandescent company will use the top cross arm on the south side line, while the arc wires will run on the second cross arm.

#### Supt. Cummins at Work

Superintendent Cummins of the Street Railway company, is now busy re-setting poles, and planning to do away with the corrosion of the water pipes. To meet the latter difficulty he is thoroughly "rebonding" the road so as to make as good a "return circuit" as possible. This, it is thought, will do away with most of the action on the pipes, by carrying the current on the rails themselves. The work of re-setting the poles on the streets not covered by the mutual agreement, is being pushed forward, and will probably be completed next week.

#### DANGER IN THE ANTI-TOXIN SERUM

A Local Physician Suggests the Possibility of Very Serious Complications.

A local physician writes to The Gazette as follows:

"Dr. Kartwright, of the Brooklyn Medical Journal, after reviewing the standing of anti-toxin treatment of diphtheria up to the present time, concludes as follows:

"Anti-toxin serum is a remedy of great power in the treatment of Klebs-Loeffler diphtheria, i.e., diphtheria showing such a bacillus. Its use is followed in a certain proportion of cases, by complications that are disagreeable, painful or dangerous. Those complications are more frequent when anti-toxine has been given in cases of false diphtheria. Hence the drug is not to be lightly used and only after bacteriological examination of the case has shown the presence of the proper bacilli. A test should be made as to the purity of the remedy, also on some lower animal before injecting it into the human being."

"So much for so much. Let the laity as well as the profession draw its own conclusions."

#### TURNKEY H. A. GRIFFEY RESIGNS

He Will Be the Manager of the New La Prairie Creamery

H. A. Griffey, turnkey at the Rock county jail, has handed his resignation to Sheriff Appleby, to take effect at once, and on or about June 15 he will accept the management of the new La Prairie creamery. The position is one for which Mr. Griffey is fully qualified, as he has had seven years' experience in the creamery business. Mr. Griffey is a hustler, and with such a man at its head, the success of the new institution is assured.

For two and one-half years Mr. Griffey has filled the position of turnkey in an eminently satisfactory manner, his term of service having included parts of the administrations of both Ex-Sheriff Bear and Sheriff Appleby.

## DR. BAINES LAID TO FINAL REST

### THE FUNERAL HELD THIS AFTERNOON.

Bennett College Professors Were the Pall Bearers and Dr. Beaton Conducted the Services—Floral Offerings Many and Handsome—Memorial Service For John Day at Madison

Six fellow professors of the Bennett Medical college of Chicago, bore all that was mortal of Dr. Oscar O. Baines to the grave at Oak Hill cemetery, this afternoon. The funeral was held from the Congregational church at 2 o'clock, and the services were conducted by Rev. Dr. Beaton, of the Lincoln Park Congregational church, Chicago. Dr. Baines having been an officer in that society. The services were touching, and the attendance was large, while the floral offerings were numerous and elaborate. Among them were handsome pieces from the trustees and deacons, the Sunday school, and the Royal League of the Lincoln Park church; the North Chicago Christian Endeavor society, and a handsome floral Masonic emblem from the Bennett Medical College.

The remains arrived in Janesville at 12:40 o'clock, and were taken to the church. The common council attended the exercises in a body, and after the services the remains were taken to Oak Hill for interment.

The pall bearers were N. A. Graves, M. D., H. S. Tucker, M. D., J. B. Stevens, M. D., J. F. Hubert, M. D., H. H. Lattimer, M. D., and A. W. Strong, the first four being professors in the Bennett college, while the latter is the attorney for that institution.

Brief services had been held at the Chicago home before the funeral party left for Janesville. These services were also largely attended, the Illinois State Board of Health, of which Dr. Baines was a member, being present in a body.

#### Memorial Service for John Day

The first memorial exercises ever held at the University of Wisconsin will be held tomorrow at Madison in memory of the late John Day of this city. The program will be under the auspices of the Athenae society of which Mr. Day was a member. M. J. Gillen will speak of "Death," H. Cochens will speak of "The Athlete and Student," J. Shong of "My Classmate," Oscar Rohn of "A Friend," Frank B. Dorr of "His Character," F. Rowan of "His Prospects" and C. Barton will read a poem, while Prof. Van Hise and Mrs. C. K. Adams will also deliver addresses.

#### DR. JAMES MILLS IS INJURED.

Thrown From His Buggy By a Collision Last Night.

Dr. James Mills, who was thrown from his buggy when another vehicle ran him down, on South Main street last night, was resting quite comfortably today, although he suffered considerable pain, and was confined to his bed. No bones were broken, but painful bruises were inflicted by the fall, and it will be some days before he fully recovers.

The accident happened while the doctor was driving on Main street. The team that collided with his buggy was either a runaway, or else the driver was urging them to top speed. The shock came before the doctor could get out of the way. The fire patrol ambulance was called, and took the doctor home, where Dr. Joe Whiting attended him, he having responded to the ambulance call. Dr. E. F. Woods, who was passing the house also called in. Today many of Dr. Mills' brother physicians made friendly visits. The fact that his injuries are not dangerous will be good news to his many friends.

#### STRIKE MADE THE TRAIN LATE

Why the St. Paul Passenger Didn't Get to Janesville on Time.

A lack of Janesville carryalls in Milwaukee made the St. Paul passenger train from that city twenty minutes late this morning.

Engineer William Ellis who "piled" the train this morning, resides in Milwaukee and at some distance from the depot. When he started for the round house he found that all the street car lines were blocked and there was no carryall in sight. The result was he had to walk and was half an hour late in getting to the depot. In the future, while the strike is on he will rise earlier, he says, to guard against a repetition of the trouble.

**ROYAL**  
BAKING POWDER  
Absolutely Pure.

After examining samples of the leading brands of baking powder I have arrived at the conclusion that the Royal is superior in purity, leavening power and keeping qualities. It is a cream of tartar powder, entirely free from alum, lime, ammonia, and all deleterious ingredients. GEORGE S. COX,  
Wisconsin State Chemist

## BIND ALL UNIONS INTO ONE BIG ONE

### BRANCH OF THE AMERICAN FEDERATION TO BE FORMED.

Committee of Four Will Begin Work as Soon as the Necessary Papers Arrive From the National Headquarters at Indianapolis, Indiana—Help Weaker Organizations.

A movement was started today among labor leaders for the formation of a Federated Labor Union in this city. The new organization will be a branch of the American Federation of Labor. For some time past the matter of such a move has been discussed, the object being to form one amalgamated local organization that would take in all union wage workers of all trades thus making all the unions in town one strong organization. The new organization would especially benefit the weaker unions in the city, such as the printers and plumbers, and it is expected that before long the organization will have a membership of at least 400.

Union Labor hall will be their headquarters and a committee of four, consisting of William McGovern, John Kearns, M. H. Whittaker and Axel Exstrom will commence the work of formation as soon as the papers arrive from the headquarters at Indianapolis.

**LOUISA M. ALCOTT'S CREED.**

**Was Taught That "The Love of Goodness Was the Love of God."**

In a number of letters written at long and short intervals from 1872 to 1886 by Louisa M. Alcott, to five little girls in Allegheny county, Pa., the author of "Little Women" most charmingly and frankly discloses her extraordinary nature, and the missives, edited by Edward W. Bok, are given to the public in Ladies' Home Journal. In one of the tenderest of these letters, invoked by the sad information of the death of one of the sisters, Miss Alcott wrote her sorrowing correspondent:

" \* \* I will tell you my experience, and as it has stood the test of youth and age, health and sickness, joy and sorrow, poverty and wealth, I feel that it is genuine, and seem to get more light, warmth and help as I go on learning more of it year by year. My parents never bound us to any church, but taught us that the love of goodness was the love of God, the cheerful doing of duty made life happy, and that the love of one's neighbor in its widest sense was the best help for one's self. Their lives showed us how lovely this simple faith was, how much honor, gratitude and affection it brought them, and what a sweet memory they left behind, for, though father still lives, his life is over, as far as thought or usefulness are possible. Theodore Parker and Ralph Waldo Emerson did much to help me to see that one can shape life best by trying to build up a strong and noble character, through good books, wise people's society, an interest in all reforms that help the world, and a cheerful acceptance of whatever is inevitable; seeing a beautiful compensation in what often seems a great sacrifice, sorrow or loss, and believing always that a wise, loving and just Father cares for us, sees our weakness and is near to help if we call. Have you read Emerson? He is called a pantheist or believer in nature instead of God. He was truly Christian, and saw God in nature, finding strength and comfort in the same sweet influences of the great Mother as well as the Father of all. I too believe this, and when tired, sad or tempted find my best comfort in the woods, the sky, the healing solitude that lets my poor, weary soul find the rest, the fresh hope or the patience which only God can give us. People used to tell me that when sorrow came I should find my faith faulty because it had no name, but they were wrong, for when the heavy loss of my dear, gifted sister found me too feeble to do anything but suffer passively, I still had the sustaining sense of a love that never failed, even when I could not see why this lovely life should end when it was happiest. As a poor, proud, struggling girl I held to the belief that if I deserved success it would surely come so long as my ambition was not for selfish ends, but for my dear family, and it did come, far more fully than I ever hoped or dreamed, though youth, health and many hopes went to earn it. Now, when I might enjoy rest, pleasure and travel, I am still tied by new duties to my baby, and give up my dreams, sure that something better will be given me in time. Freedom was always my longing but I have never had it, so I am still trying to feel that this is the discipline I need, and when I am ready the liberty will come."

**The Tree-Killer.**  
One of the curious forest growths of the Isthmus of Panama and Lower Central America in general is the vine which the Spaniards call matapalo, or "tree-killer." This vine first starts in life as a climber upon the trunks of the large trees, and, owing to its marvelously rapid growth, soon reaches the lower branches. At this point it first begins to put out its "feelings"—tender, harmless looking root shoots, which soon reach the ground and become as firmly fixed as the parent stem. These hundreds of additional sap tubes give the whole vine a renewed lease of life, and it begins to send out its aerial tendrils in all directions. These entwine themselves lightly around every limb of the tree, even creeping to the very farthestmost tips and squeezing the life out of both bark and leaf. Things go at this rate but a short while before the forest giant is compelled to succumb to the gigantic parasite which is sapping its life's blood. Within a very few years the tree rots and falls away, leaving the matapalo standing erect and hollow, like a monster vegetable devil-fish lying upon its back with its horrid tentacles clasped together high in the air. Core-like arbors of matapalo are to be seen in all directions, each testifying to the lingering death of some sylvan giant that formerly supported it.—Information.

**Home of Delight.**  
The "Home of Delight," which has just been opened in Philadelphia, is to be for the enlightenment, uplifting and betterment of the so-called "slum" dwellers of Philadelphia. It is a four-story brick structure, about twenty-five feet wide, and the first floor contains the large lecture hall and two gamerooms, the latter being equipped with table bagatelle, checkers, lotto and other games. The second story contains the library of 1,000 volumes and a reading-room adjoining. Back of these rooms is the printing-room, whence a weekly paper called Our World and Work will be issued in a short time. On the third floor are a committee-room and a gameroom, while the remainder of the house is occupied by the superintendent and his wife.

**Heartless Wretch.**  
"Will the coming woman raise whiskers?" inquired Tommy Wrott. "She will raise them as now, sir," replied the majestic Mrs. Strongmind, "on the faces of her stalwart sons!"  
"Then let her do her voting with the hands of her stalwart sons," rejoined the would-be tormentor.

**NEEDED THE MONEY.**

**Why the Kentuckian Charged the Lecturer \$3 for a Dinner.**

A great many droll characters and bright, shrewd men are met with among hotel proprietors wherever you go, says the New York World. "The Fat Contributor" was lecturing once in the state of Kentucky and had occasion to take dinner at a six-bit hotel. After the meal Mr. Griswold stepped up to the counter, took out a bale of bank-notes, which he had received for his lecture the evening before, and asked what might be the damage.

"Three dollars," said the blue-grass gentleman, who had buttoned his collar with a tuppenny nail while he looked at "Cris" with a pained expression. "Yes, but a man ought to be able to board here a week for \$3. The whole house didn't cost more than \$40 or \$45. What's your idea in charging me \$3 for a wad of hominy and a piece of parched pork?"

"Well, sir," said the urbane landlord, as he put out the fire at a distance of twenty feet, by emptying his salivary surplus on it, "I need the money."

The frankness and open, candid manner of the man won Mr. Griswold and he asked him if he thought \$3 would be enough. The landlord said he could get along with that. Then Griswold opened his valise and took out a large brunette bottle of liniment marked "For external use." He passed it over to the landlord and told him he would find this stuff worked as well on the inside as it did on the outside. In a few moments the liniment of the "Fat Contributor" and the lineaments of the landlord had merged into each other, and a friendly feeling sprang up between the two men which time has never effaced.

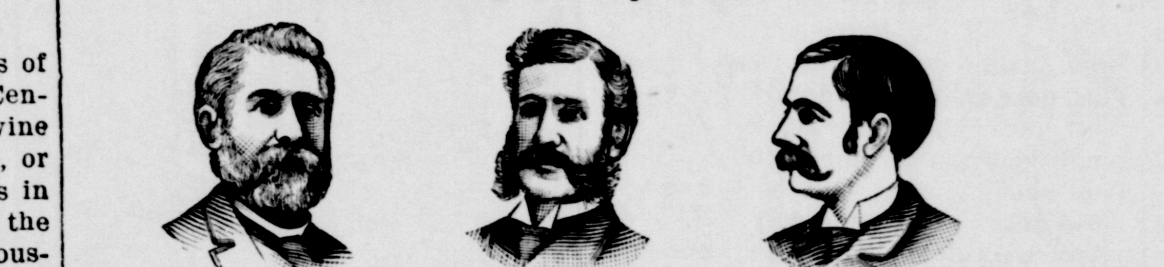

**MY SICK SISTERS.**

"I want to tell you what Lydia E. Pinkham's Vegetable Compound has done for me. For twenty years I had suffered with loss of appetite, nausea, constipation, palpitation of the heart, headache, pains in nearly all parts of my body. My physician said it was indigestion, medicine did not help me any. I began the use of the Pinkham Remedies, particularly Lydia E. Pinkham's Vegetable Compound. I have taken four bottles, and now those troubles are cured."

"I cannot praise it enough, and our druggist says the medicine is doing a world of good among his customers."—Belle S. Thompson, New Bedford, Mass.

## SKIRTS AS THEY ARE WORN.

Dresses to Be Made Shorter and Narrower and Not Stiffened.

It is rumored that skirts are to be shorter for ordinary wear. A skirt that does not touch the ground when the wearer is walking is certainly the most comfortable one for the street and is infinitely neater than one which drags even a little, for the brushing of the edge of the skirt against the sidewalk raises a cloud of dust that settles upon the hosiery and white skirts with most unpleasant effect. Unless one can afford to pay a laundry bill of colossal proportions the long walking skirt is a forbidden luxury, since it necessitates one or two changes of white wear a day.

Skirts are already narrower, and now there is a whisper that the stiffening of crinoline or haircloth is to be omitted, its place being supplied by a stiff petticoat, which gives the required flare and yet allows the dress skirt to retain its softness. The rigidity of the stiffened dress skirts has been a grievous fault, artistically speaking, and it is to be hoped that the softer effect will obtain general favor. Haircloth petticoats with silk ruffles are worn and are not so costly as would appear at first thought. Of course they are expensive, but the same one will serve under a variety of gowns, while if each dress

HOUSE COSTUME.

itself is stiffened the consumption of haircloth for linings will be enormous. Crinoline or crossbar is not costly, but neither is it good for anything, for it wilts almost at once, like all fabrics that depend upon starch for their firmness. Haircloth is the sole reliable stiffening, and that is always high priced, so it is quite as cheap to put all the cost of the haircloth in a good petticoat as to distribute it among a number of gowns.

The illustration shows a house costume of silk having stripes of green and chamois on a white ground. The bodice is cut so that the stripes form points at the seams. The close bodice has a basque slashed in square tabs and opens over a full vest of white silk gauze. Straps of green satin cross the vest and are fastened by silver buttons. The bodice has large revers of green satin and imitation pockets of the same material, finished with frills of gauze and fastened with silver buttons. The silk sleeves are opened to show an undersleeve of white gauze and terminate at the elbow under a green satin band, from which falls a frill of lace.

## VARIOUS NOVELTIES.

## New Materials and Colors—Children's Socks and Little Scoop Bonnets.

A very thin tissue of all wool has woven stripes of silk and little knots of mohair over the surface. The stripes are about four threads wide, about half an inch apart and run lengthwise of the material. This comes in a full line of color. A particularly attractive fabric is of silk and wool twisted together, the effect being not unlike a silk homespun. The colors are mostly combinations in very bright shades. There are thick wool homespuns in all popular shades and combinations, and chevrons are in excellent demand for tailor suits, bicycle costumes and ordinary serviceable wear. A pretty boucle fabric has soft little rings of wool in blue, light brown, gray, pink, white and yellow, the colors being exquisitely blended, and, although at first glance they appear to be thrown in carelessly, study reveals the most perfect method in their combining. These goods show almost all popular tints and combinations.

Sacks of elder down flannel are shown for children's wear. They fall below the waist, have turned over collars, ample sleeves and are bound with ribbon or trimmed with braid or galloon. These little jackets are convenient to have at hand when small children are dressed in thin clothing, as there is always danger of a

CHILDREN'S GOWNS.

sudden chill or change of weather. Little people are much more susceptible to atmospheric influences than many parents realize.

Very pretty bonnets for little girls are now shown. They are something like the old fashioned scoop bonnet in shape. The crown is of coarsely woven straw, while the flaring brim is of finely plaited silk, combined sometimes with lace. The effect is quite picturesque.

The frock worn by the smaller figure in the sketch is of green liberty silk. It is mounted on a yoke in double box plaits and is adorned around the foot with three rows of guipure insertion. A pointed collar of guipure covers the yoke, the tops of the plaits being indicated by bows of white ribbon. The second figure wears a gown of red wool dotted with white. The skirt forms three plaits at the back. The blouse bodice has three crosswise plaits back and front, giving a yoke effect, the portion above being covered with lace. The sleeves are similarly plaited. JUDIC CHOLLET.

## THE QUESTION OF RELIGION.

## Matthew Arnold Criticizes a Brilliant Skeptic.

We find a brilliant mathematician, Prof. Clifford, launching invectives, which, if they were just, would prove either that no religion at all has any right to mankind's regard or that the Christian religion, at all events, has none, says one of Matthew Arnold's letters. He calls Christianity "that awful plague which has destroyed two civilizations and but barely failed to slay such promise of good as is now struggling to live among men." He warns his fellow-men against showing any tenderness to "the slender remnant of a system which has made its red mark on history and still lives to threaten mankind." "The grotesque forms of its intellectual belief," he scornfully adds, by way of finish, "have survived the discredit of its moral teaching." But these are merely the crackling fireworks of youthful paradox. One reads it all, half-sighing, half-smiling, as the declamation of a clever and confident youth, with the hopeless inexperience, irredeemable by any cleverness, of his age.

Only when one is young and headstrong can one thus prefer bravado to experience, can one stand by the Sea of Time, and, instead of listening to the solemn and rhythmic beat of its waves, choose to fill the air with one's own whoopings to start the talk. But the mass of plain people hear such talk with impatient indignation and flock all the more eagerly to Messrs. Moody and Sankey. They feel that the brilliant free-thinker and revolutionist talks about their religion and yet is all abroad in it—does not know either that or the great facts of human life—and they go to those who know them better. And the plain people are not wrong. Compared with Prof. Clifford, Messrs. Moody and Sankey are masters of the philosophy of history.

Men are not mistaken in thinking that Christianity has done them good. In loving it, in wishing to listen to those who will talk to them about what they love and will talk of it with admiration and gratitude, not contempt and hatred. Christianity is truly, as in "Literature and Dogma" I have called it, "the greatest and happiest stroke ever yet made for human perfection." Men do not err; they are on firm ground of experience when they say that they have practically found Christianity to be something incomparably beneficial. Where they err is in their way of accounting for this and of assigning its causes.

## The Climate of Africa.

Henry M. Stanley, the explorer of Africa, says this, in the Century Magazine, about its climate.

As for the climate, it is no worse than that found elsewhere in tropic lands. The heat is not so great as in India, or as it is sometimes in New York in summer. Fortunately, the coast belt on both sides of Africa, where the heat is greatest, and where the climate is most unhealthy, is narrow. In four hours a railway train at ordinary speed would enable us to cross it, and so avoid the debilitating temperature. Ascending the sides of the coast range by the same means of conveyance, we should in two hours reach a rolling plain, which gradually rises in height from 2,500 to 3,500 feet above the sea.

Here the climate is sensibly cooler, and the white man may safely work six hours a day in the open without fear of sunstroke, though he must not count on immunity from fever. In from ten to twelve hours, the traveler by train would meet another steep rise, and would find himself from 5,000 to 8,000 feet above the sea, on the broad central plateau of the continent, which varies from 600 to 1,000 miles across. It is in this section that the great lakes, snowy mountains and tallest hills are found. Here we have cold nights and a hot sun when the skies are not clouded, though the air in the shade is frequently cool enough for an overcoat; and it is on this immense upland that the white man, when compelled by circumstances, may find a home.

## A Man Who Never Knew Pain.

Dr. Paul Eve, a Georgian physician, records a peculiar case of a man who never knew pain. Dr. Eve knew the man personally. The man, who was about fifty-six years of age at the time of his death, was a lawyer, strong both in mind and body. During a political campaign, not liking the appearance of a finger which had been injured in an affray, he at once amputated it by himself. He had at one time an ulcer on a toe which resisted treatment for three years. He told his physician that from first to last it never gave him any pain. At another time he had an abscess in his hand, involving the whole forearm and arm, which became enormously swollen and threatened his life; the lancet had to be freely used, yet he suffered no pain. He said he felt no pain when his eyes were operated on for cataract; and Dr. Eve vouches for his statue-like immobility during the second operation.

## A Bamboo Church Organ.

A bamboo church organ is reported to have been built in Shanghai, and it is said to surpass organs made of metal. As bamboo can be obtained of all dimensions from the thickness of a pen to pieces of a foot in diameter, this natural material costs little more than the simple labor, and the notes are beautifully soft and pleasant to the ear.

## Justice.

Justice and greed are eternal enemies. Selfishness is the greatest obstacle to justice. It is this that makes one man take advantage of the needs of another to enrich himself.—Rev. J. S. Reager.

Mamma (to blue-eyed cherub)—Algy, love, you must not eat so much cake just at bedtime; you will not be able to sleep on a full stomach.

Blue-Eyed Cherub—But I do not sleep on my stomach, mamma. I always lie on my back.—Texas Siftings.

## Her Dear Friends.

Maud—Miss Millsap is so very plain! But she sings well.

Irene—Poor girl! She never can understand why it is that when young Mr. Peduncle comes to see her he turns down the light and then asks her to sing.—Chicago Tribune.

## Mathematical Conclusion.

Aunt Dorothy—How many commandments are there, Johnny?

Johnny (glibly)—Ten.

Aunt Dorothy—And now, suppose you were to break one of them?

Johnny (tentatively)—Then there'd be nine.—Tit-Bits.

## No Wonder.

Maud—Mr. Bashfulle, I'm told, expired just as he was trying to propose to Miss Oldgirl. What do you suppose ailed him?

Bella—Heart failure, I guess.—To Date.

The sick man knocking at the door of health gets in if he knocks the right way, and, stays out if he doesn't. There are thousands of ways of getting sick, but only one way to get well. Do whatever you will, if you do not put your digestion in good order, and make your blood rich and pure, you will not get well. Rich, pure blood is the only thing that can bring perfect health. Constipation is a disease of the blood. A large part of all diseases are traceable directly to impurities in the blood, and can be cured by eliminating them with Dr. Pierce's Golden Medical Discovery. The first thing it does is to put the whole digestive system into perfect order. It stimulates the appetite, excites a copious secretion of the digestive fluids and promotes assimilation. It searches out disease germs wherever they may be, kills them and forces them out of the system. The "Golden Medical Discovery" has been used with unvarying success for over 30 years.
